

*All data reflects estimated awards, actual award may vary. Estimates are based on data from CRS, Census

*Unemployment allocations draw from August 2020 BLS data

*Entitlement community and county data is based on the 2019 Census

*Nonentitlement municipalities (generally those with populations less than 50,000) allocation data is based on the 2018 Census. These calculations are a best approximation. Numbers for states and districts with township governments that have overlapping jurisdictions should be treated as a very rough estimate.
