9. CFDA NO AND PROGRAM NAME:

11.611 Manufacturing Extension Partnership

10. SCOPE OF WORK:

Activities to be performed: Through its collaborations at the federal, state and local level, the Center will work with manufacturers to improve processes, develop new products, expand and diversify markets, adopt new technology, and enhance value within supply chains.

Expected Outcomes: Provide U.S. manufacturers in the State of Michigan access to resources they need to generate positive business results and to compete and succeed in the global economy.

Intended Beneficiaries: Small and medium-sized manufacturers in the State of Michigan.
