118TH CONGRESS
1ST SESSION

H. R.

To amend the Public Health Service Act with regard to research on asthma,
and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

Mrs. DINGELL introduced the following bill; which was referred to the
Committee on _____

A BILL

To amend the Public Health Service Act with regard to
research on asthma, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Elijah E. Cummings
5 Family Asthma Act”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

8 (1) According to the Centers for Disease Con-
9 trol and Prevention, in 2020 nearly 25,300,000 peo-

1 ple in the United States had been diagnosed with
2 asthma, including an estimated 4,200,000 children.

3 (2) According to the Centers for Disease Con-
4 trol and Prevention, asthma is more common among
5 Black Americans, Native individuals (American Indi-
6 ans/Alaska Natives), Puerto Ricans, and people of
7 multiple races compared to non-Hispanic white indi-
8 viduals.

9 (3) According to the Centers for Disease Con-
10 trol and Prevention, among children, males have
11 higher rates of asthma than females, and in adults,
12 women have higher rates of asthma than men. Indi-
13 viduals living below the poverty threshold also had
14 significantly higher rates of asthma in 2020 than in-
15 dividuals living above the poverty threshold.

16 (4) According to the Centers for Disease Con-
17 trol and Prevention, in 2020 more than 4,100 people
18 in the United States died from asthma. The rate of
19 mortality from asthma is higher among African
20 Americans and women.

21 (5) The Centers for Disease Control and Pre-
22 vention report that asthma accounted for approxi-
23 mately 183,000 hospitalizations and 1,600,000 visits
24 to hospital emergency departments in 2016.

1 (6) According to the Centers for Disease Con-
2 trol and Prevention, the annual cost of asthma to
3 the United States is approximately
4 \$81,900,000,000, including \$3,000,000,000 in indi-
5 rect costs from missed days of school and work.

6 (7) According to the Centers for Disease Con-
7 trol and Prevention, more than 7,900,000 school
8 days and 10,900,000 workdays are missed annually
9 as a result of asthma.

10 (8) Asthma episodes can be triggered by both
11 outdoor air pollution and indoor air pollution, in-
12 cluding pollutants such as cigarette smoke and com-
13 bustion by-products. Asthma episodes can also be
14 triggered by indoor allergens such as animal dander,
15 mold, cockroaches, and rodents, and outdoor aller-
16 gens such as pollen.

17 (9) Public health interventions and medical care
18 in accordance with existing guidelines have been
19 proven effective in the treatment and management
20 of asthma. Better asthma management could reduce
21 the numbers of emergency department visits and
22 hospitalizations due to asthma. Studies published in
23 medical journals, including the *Journal of Asthma*
24 and *The Journal of Pediatrics*, have shown that bet-
25 ter asthma management results in improved asthma

1 outcomes at a lower cost. However, research pub-
2 lished in Preventing Chronic Disease has shown
3 gaps in consistent and comprehensive coverage of
4 guidelines-based asthma care across State Medicaid
5 programs.

6 (10) The high health and financial burden
7 caused by asthma underscores the importance of ad-
8 herence to the National Asthma Education and Pre-
9 vention Program Guidelines of the National Heart,
10 Lung, and Blood Institute. Increasing adherence to
11 guidelines-based care and resulting patient manage-
12 ment practices will enhance the quality of life for pa-
13 tients with asthma and decrease asthma-related
14 morbidity and mortality.

15 (11) In 2016, the Centers for Disease Control
16 and Prevention reported that less than half of people
17 with asthma reported receiving self-management
18 training for their asthma. More education about
19 triggers, proper treatment, and asthma management
20 methods is needed.

21 (12) 27 States do not receive funding through
22 the National Asthma Control Program of the Cen-
23 ters for Disease Control and Prevention. Without
24 this funding, State health departments have a lim-
25 ited capacity to improve the reach, quality, effective-

1 ness and sustainability of asthma control services,
2 conduct comprehensive adult and pediatric surveil-
3 lance, and to reduce asthma morbidity, mortality,
4 and disparities.

5 (13) The alarming rise in the prevalence of
6 asthma, its adverse effect on school attendance and
7 productivity, and its cost for hospitalizations and
8 emergency room visits, highlight the importance of
9 public health interventions, including increasing
10 awareness of asthma as a chronic illness, its symp-
11 toms, the role of both indoor and outdoor environ-
12 mental factors that exacerbate the disease, and other
13 factors that affect its exacerbations and severity.
14 The goals of the Federal Government and its part-
15 ners in the nonprofit and private sectors should in-
16 clude reducing the number and severity of asthma
17 attacks, asthma’s financial burden, and the health
18 disparities associated with asthma.

19 **SEC. 3. ASTHMA-RELATED ACTIVITIES OF THE CENTERS**
20 **FOR DISEASE CONTROL AND PREVENTION.**

21 Section 317I of the Public Health Service Act (42
22 U.S.C. 247b–10) is amended to read as follows:

1 **“SEC. 317I. ASTHMA-RELATED ACTIVITIES OF THE CENTERS**
2 **FOR DISEASE CONTROL AND PREVENTION.**

3 “(a) PROGRAM FOR PROVIDING INFORMATION AND
4 EDUCATION TO THE PUBLIC.—The Secretary, acting
5 through the Director of the Centers for Disease Control
6 and Prevention and the Director of the National Center
7 for Environmental Health, shall collaborate with State
8 and local health departments to conduct activities regard-
9 ing asthma, including the provision of information and
10 education to the public regarding asthma, including—

11 “(1) deterring the harmful consequences of un-
12 controlled asthma; and

13 “(2) disseminating health education and infor-
14 mation regarding prevention of asthma episodes and
15 strategies for managing asthma.

16 “(b) DEVELOPMENT OF STATE STRATEGIC PLANS
17 FOR ASTHMA CONTROL.—The Secretary, acting through
18 the Director of the Centers for Disease Control and Pre-
19 vention, shall collaborate with State and local health de-
20 partments to develop State strategic plans for asthma con-
21 trol incorporating public health responses to reduce the
22 burden of asthma, particularly regarding disproportion-
23 ately affected populations.

24 “(c) COMPILATION OF DATA.—

25 “(1) IN GENERAL.—The Secretary, acting
26 through the Director of the Centers for Disease

1 Control and Prevention, in collaboration with State
2 and local health departments, shall—

3 “(A) conduct asthma surveillance activities
4 to collect data on the prevalence and severity of
5 asthma, the effectiveness of public health asth-
6 ma interventions, and the quality of asthma
7 management, including—

8 “(i) collection of data on or among
9 people with asthma to monitor the impact
10 on health and quality of life;

11 “(ii) surveillance of health care facili-
12 ties; and

13 “(iii) collection of data from electronic
14 health records or other electronic commu-
15 nications; and

16 “(B) compile and annually publish data re-
17 garding—

18 “(i) the prevalence of childhood asth-
19 ma;

20 “(ii) the child mortality rate of asth-
21 ma;

22 “(iii) the number of hospital admis-
23 sions and emergency department visits by
24 children associated with asthma nationally,

1 disaggregated by State, age, sex, race, and
2 ethnicity;

3 “(iv) the prevalence of adult asthma;

4 “(v) the adult mortality rate of asthma;
5 ma; and

6 “(vi) the number of hospital admissions and emergency department visits by
7 adults associated with asthma nationally,
8 disaggregated by State, age, sex, race, and
9 ethnicity.
10 ethnicity.

11 “(2) DATA PRIVACY.—None of the data collected, compiled, or published under paragraph (1)
12 may contain individually identifiable information.
13

14 “(3) ENSURING COMPARABILITY.—The Secretary, acting through the Director of the Centers
15 for Disease Control and Prevention, in collaboration
16 with State and local health departments, shall ensure that the data described in paragraph (1) are
17 collected and compiled using a consistent methodology so as to maximize the comparability of results.
18

19 “(d) COLLABORATION WITH NONPROFITS.—The Director of the Centers for Disease Control and Prevention
20 may collaborate with national, State, and local nonprofit
21 organizations to provide information and education about
22 asthma.
23
24
25

1 “(e) REPORTS TO CONGRESS.—Not later than 3
2 years after the date of enactment of the Elijah E. Cum-
3 mings Family Asthma Act, and 2 years thereafter, the
4 Secretary shall, in collaboration with patient groups, non-
5 profit organizations, medical societies, and other relevant
6 governmental and nongovernmental entities, submit to
7 Congress a report that—

8 “(1) catalogs, with respect to asthma preven-
9 tion, management, and surveillance—

10 “(A) the activities of the Federal Govern-
11 ment, including an assessment of the progress
12 of the Federal Government and States, with re-
13 spect to achieving the goals of the Healthy Peo-
14 ple 2030 initiative; and

15 “(B) the activities of other entities that
16 participate in the program under this section,
17 including nonprofit organizations, patient advo-
18 cacy groups, and medical societies; and

19 “(2) makes recommendations for the future di-
20 rection of asthma-related activities, in consultation
21 with researchers from the National Institutes of
22 Health and other member bodies of the Asthma Dis-
23 parities Subcommittee, including—

24 “(A) a description of how the Federal Gov-
25 ernment may improve its response to asthma,

1 including identifying any barriers that may
2 exist;

3 “(B) a description of how the Federal Gov-
4 ernment may continue, expand, and improve its
5 private-public partnerships with respect to asth-
6 ma, including identifying any barriers that may
7 exist; and

8 “(C) the identification of steps that may be
9 taken to reduce the—

10 “(i) morbidity, mortality, and overall
11 prevalence of asthma;

12 “(ii) financial burden of asthma on
13 society;

14 “(iii) burden of asthma on dispropor-
15 tionately affected areas, particularly those
16 in medically underserved populations (as
17 defined in section 330(b)(3)); and

18 “(iv) burden of asthma as a chronic
19 disease that can be worsened by environ-
20 mental exposures;

21 “(D) the identification of programs and
22 policies that have achieved the steps described
23 in subparagraph (C), and steps that may be
24 taken to expand such programs and policies to
25 benefit larger populations; and

1 “(E) recommendations for future research
2 and interventions.

3 “(f) AUTHORIZATION OF APPROPRIATIONS.—To
4 carry out this section, there is authorized to be appro-
5 priated \$70,000,000 for the period of fiscal years 2024
6 through 2028.”.
